In 2023, the Foundation donated \$217,545 to support students.

The K-12 programs we serve provide access to high-quality education for children from marginalized communities helping them break the cycle of poverty through social emotional education, summer programs and mentoring.

The Paige Foundation also offers need-based college scholarships. Last year, we supported over 80 college students in pursuing their educational aspirations. The Paige Foundations highest priority is helping low-income students achieve their academic goals and lifelong dreams.

2023 Impact Statement

The Foundation has invested \$3.1 million dollars into the community since its formation in 2007. Since 2021, our fundraising consulting helped raise an additional \$3.3 million for our nonprofit partners through increased donations from the community.

Strategic Priority

The Paige Foundation actively supports our nonprofit community partners through impactful grants. In 2021, we deepened our collaboration by aligning with their goals and offering pro-bono fundraising consulting to support them in obtaining their strategic objectives.

Older Adults

In 2023, the Foundation donated \$38,000 to support low-income older adults.

This year our grant funding supported:

St. Paul's Program of All-Inclusive Care for the Elderly (P.A.C.E.) in California

TRU Community Care

VIA Mobility Services in Colorado

The older adult programs the Paige Foundation supports work to enable adults of modest means to age safely in their own homes; which was one of Judy Paige's greatest desires.
